Description

Concrete fireplaces

Materials and features

Concrete fireplaces are a novelty in modern interior design. A concrete fireplace blends seamlessly with carpet or tile and not only adds sophistication to your living room, it also warms and insulates your home. Petrocrete will help in the manufacture of a stunning concrete hearth, fireplace or mantle, casing. All of our fireplaces are made to order.

Concrete fireplace design options

There are many different design options for fireplaces. If you have a specific design, the Petrobeton team can help you plan, fabricate and install a concrete fireplace in your home.

Modern technologies have helped to achieve not only cheaper material for creating a hearth, but also given the opportunity to choose - after all, a concrete fireplace is suitable both for kindling an open fire in a dwelling and for placing a decorative fireplace, which is gaining popularity among connoisseurs of the original interior. Pleasant to the touch, the gray surface of the concrete fireplace will perfectly fit into any design.
