Description

The architectural water wall fountain seamlessly blends industrial stainless steel with durable concrete aesthetics. Parallel water streams flow smoothly within the frame into the stainless steel reservoir, offering therapeutic sound acoustics and a captivating visual experience.

Key Features:

- Materials:** High-grade anti-corrosive stainless steel frame paired with architectural concrete base elements.
- Self-Contained System:** Operates on a closed-loop water recirculating pump system

requiring no permanent water line connection.

- **LED Illumination:** Built-in top LED lighting highlights the free-falling water strands, turning the garden fountain into a stunning evening centerpiece.
- **Versatility:** Designed for garden patios, outdoor lounges, entrance courtyards, as well as luxury interior lobbies.
