Description

Bring modern luxury into your environment with the "Line" water wall. This model is crafted from top-tier polished or brushed stainless steel, ensuring complete resistance to corrosion, UV rays, and outdoor elements. The smooth flow of water over the metallic surface generates a striking visual effect in sunlight and delivers a pleasant, soothing sound.

Operating on a closed water loop, it is suitable for outdoor placement on terraces or gardens, as well as stylish commercial and residential interiors—offices, SPA zones, and hotel lobbies. Handcrafted with meticulous attention to detail and seamlessly finished joints.

*Installation, delivery, and custom dimensioning directly from the manufacturer.*
