Description

The exclusive "Cascade Premium" thread water wall is built entirely from high-grade brushed stainless steel. Unlike glass-based features, water gently glides down fine, parallel stainless steel strands, forming a semi-transparent, dynamic water curtain.

Equipped with a heavy-duty stainless steel base reservoir and top-mounted LED lighting, every falling droplet glows brightly during dusk and night hours. Operating on a completely closed-loop circulation system, it is designed for terraces, gardens, as well as modern office lobbies, lounge areas, and SPA zones—providing ambient air humidification and sound relaxation.

Corrosion-resistant, quiet operation, custom sizing, and handcrafted quality directly from the manufacturer.
